LIVES

Fitting to a tee

Convenient city courses please, but are not cool for slant on green.

City courses fit golfers to a tee

By [unreadable]

For the urban golfer, the city is the new frontier. In the past, golf courses were often located in rural areas, but now they are being built in city centers. This is due to a number of factors, including the desire for convenience and the need for more green space in urban areas.

generally expect higher rates of return on their investments. This is because they are more likely to be in high-growth areas and have a higher potential for appreciation.

There are several reasons why city courses are becoming more popular. First, they are more convenient for urban residents who do not have a car. Second, they are often located in areas with high property values, which makes them a more attractive investment. Finally, they are often designed to be more aesthetically pleasing and to provide a better overall experience for the golfer.

also are popular for a number of other reasons. For example, they are often located in areas with high property values, which makes them a more attractive investment. Finally, they are often designed to be more aesthetically pleasing and to provide a better overall experience for the golfer.
